

DE·BVRIS

"Homo tempus metirit, tempus hominem". Man measures time, time measures man.

As a family and a company Tommasi works for the present and future of Italian wine. Tommasi is synonymous with the history of Amarone and Valpolicella. And not only them. With wholly-owned vineyards in six regions of Italy, Tommasi produces great wines from dedicated territories, characterized by excellence.

An ambition dating back twenty years, nourished by the values that have always characterized our history: sustainability, the quality of the land and soil under ownership, experimentation:

DeBuris, a radiant child of "our" Time.

The Groletta vineyard is a symbol of the Valpolicella Classica.

On the hilltop Dreams turn into reality.

De Buris is a project that takes the Tommasi Family back to its roots, the origins of Valpolicella Classica.

On the Grola hilltop, in an area known as La Groletta, in the heart of Sant'Ambrogio di Valpolicella, with a natural vocation for quality and for Amarone.
