Vineyard & Viticulture Practice

Christine Schlumberger (1894-1971) looked with talent and firmness after the management of Domaines Schlumberger during nearly twenty years. The Late Harvest (Vendanges Tardives - appellation since 1984) are wines harvested in overmaturity, several weeks after the harvest. Contrary to certain types of sweet wines, they maintain a freshness and natural acidity with a flavour that is unique in the world.

Vinification

Harvested manually from our steep vineyards, the grapes are then transported in small crates (to prevent the berries from getting crushed) to our winery where they are then slowly pressed. After racking for about 3 days, the perfectly clear juices are put to ferment in tuns where the temperature is strictly controlled. Fermentations last from 1 to 3 months until spring. The wines are then stabilised, filtered and then bottled.

Tasting Notes

The colour is golden yellow with green reflections, of good intensity. The nose is layered with candied, fruity aromas, strawberries, bananas, passion fruit and honey. Aeration amplifies these odours and reveals star fruit, mango, papaya and spices, ginger. The attack on the palate is dense, rich, the alcohol support is balanced. The finish has a great length, as well as a fine vivacity and a hint of persistent bitterness. The balance is remarkable.

Food Pairing

Pair it with a blue-veined cheese, such as Bleu de Gex.
